

The Nexus of Climate Data, Insurance, and Adaptive Capacity

Poster Session
Thursday, November 8
5:30PM - 7:30PM

Climanomics(TM): The Price of Climate Change
James McMahon

Mapping Your Higher-Probability Lower-Impact Weather Risk
Douglas Stewart

Interaction Pursuit with Feature Screening and Selection
Daoji Li

Inferring Society's Risk Attitudes from Publicly Available Data.
Mark Borsuk

Risk Estimation to Weather Hazards Using a Bayesian Approach
Lelys Bravo

Robust Adaptation to Multi-scale Climate Variability
James Doss-Gollin

Incorporating Precursor Information into Volcanic Avalanche Forecasts
Elaine Spiller

Haiti Risk Engineering Pilot Programs
James McNichols
